

ITAM Foundation Workshop	OpenChain - getting it right with Open Source Software	ISO standards and ITAM Maturity workshop
<p>The Exin/ITAMOrg ITAM Foundation Certificate is the industry standard for foundation level ITAM knowledge. This ITAM Foundation workshop covers all of the 4 main ITAM disciplines; Software & Hardware Asset Management, People & information (security) and Cloud & Services.</p> <p>The workshop is conducted by a certified ITAM Foundation instructor, Piaras MacDonnell, who will give you the overview of all of the main ITAM disciplines and how this knowledge applies to and addresses the organisational challenges in managing ITAM.</p>	<p>With the increasing adoption of open source software in software development there is an increasing need for organisations to understand free and open source software licensing obligations and compliance issues.</p> <p>Knowledge acquired from this course: Basic legal understanding of the principles of open source software licensing Understand the spectrum of software licence categories e.g. reciprocal, permissive etc. Obligations in open source software compliance and industry best practices</p> <p>The workshop is conducted by Paul McAdam, Director of Open Source Management specialists at Source Code Control.</p>	<p>In this deep dive session you will get an understanding of the importance of standards within ITAM in particular and with reference to the ISO SAM/ITAM standard ISO 19770-1: 2017 but also related standards.</p> <p>What makes this updated standard so good? How does the standard refer to other Management Systems standards? And how you may approach it in taking advantage of it within your organisation</p> <p>In the second half of the session you will be guided further into organisational maturity and an online maturity assessment will be conducted for you to bring back home.</p> <p>This workshop is conducted by Rory Canavan, Director of R&D at ITAMOrg and the Founder & CEO at SAM Charter, and Jason Keogh, ISO standards editor involved in the IT Asset Management (19770) and Information Security (27000) families of standards.</p>

NETWORKING EVENT – the ITAM AWARD

The ITAM Conference 2019 offers an opportunity to network, meet new colleagues and renew old acquaintances.

On the evening of the deep-dive day - 8th of April - we would like to invite you to a gathering in **the Sky Suite in Radisson Blu Royal Hotel**. There will be finger foods served during the evening and places are limited, so sign up early to secure your place.

During the networking event we will also present The winner of The ITAM Award 2019. The ITAM Award is presented by the 2017 winner of the **ITAM Award Stanislav Pavlin**
